E-POSTERS (NOT IN E-POSTER SESSION)

EP256  PLASMA MEDICINE IN DERMATOLOGY: MOLECULAR MECHANISMS AND CLINICAL OPPORTUNITIES
Stephanie Arndt, Unger Petra, Schewior Ruth, Sigrid Karrer
Acute Wounds

EP257  RESULTS OF A NATIONAL MULTICENTER TRIAL WITH AN ADHESIVE NEUTRAL FOAM DRESSING WITH TLC (TECHNOLOGY LIPIDO-COLLOID) AND A SILICONE BORDER*
Michael Diettein, Winfried Keuthage, Elisa Becker, Udo Möller
Acute Wounds

EP258  MODERN ANTISEPTIC HYDROGEL IN WOUND INFECTIOUS COMPLICATIONS TREATMENT IN SURGERY
Anna Afinogenova, Gennady Afinogenov, Svetlana Matelo, Alexander Grosser, Tatiana Kupets, Konstantin Krylov, Dmitry Maday, Georgy Kolchanov
Antimicrobials

EP259  COMPARISON OF THE EFFECTIVE OF APPLICATION NANOCRISTALLINE SILVER DRESSING* AND SILVERSULFADIAZINE CREAM** IN THE TREATMENT BURN WOUNDS
Borisov Valery, Kaplunova Mariia
Burns

EP260  COMPRESSION THERAPY IN FAMILY MEDICINE – CROSS-SECTIONAL STUDY
Tamara Sinkošić, Jadranka Kovačević
Devices & Intervention

EP261  INTERMITTENT PNEUMATIC COMPRESSION IN INTRACTABLE CRITICAL ISCHEMIA OF THE LOWER LIMB – A PILOT STUDY
Ingrid Luise Feuerhake, Annette Langager Høgh, Eskild Henneberg
Devices & Intervention

EP262  THE USE OF BIOPLASTIC COLLAGENOUS MATERIAL (BCM)* IN COMPLEX SURGICAL TREATMENT OF THE INFECTED NEURO-ISCHEMIC FORMS (INF) OF THE DIABETIC FOOT SYNDROME (DFS)
Dmitry Seliverstov
Diabetic Foot

EP263  LOCAL TOLERABILITY, WOUND HEALING PROPERTIES AND ACCEPTABILITY OF TWO WATERPROOF DRESSINGS FOR POST OPERATIVE CARE AFTER MINOR SURGERY
Maike Kuhlmann, Swarna Ekanayake-Bohlig, Katrin Klensang, Sandra Saladin, Walter Wigger-Alberti
Dressings

EP264  CHARACTERIZATION OF NOVEL HUMAN MESENCHYMAL STEM CELL-CONTAINING SKIN SUBSTITUTE* FOR THE TREATMENT OF WOUNDS
Alla Danilkovitch, Dana Yoo, Tim Jansen, Jin-Qiang Kuang, Samson Tom, Dayna Healy, Michelle A. LeRoux
Basic Science

EP265  RESULTS OF A NATIONAL MULTICENTER TRIAL WITH AN ADHESIVE FOAM DRESSING IMPREGNATED WITH A MATRIX-METALLOPROTEINASES-INHIBITOR* AND A SILICONE BORDER IN OUTPATIENTS WITH CHRONIC WOUNDS
Dimitrios Tsantilas, Winfried Keuthage, Elisa Becker, Udo Möller
Dressings

EP266  BENEFITS OF COMMON INSTRUCTIONS IN DREBRIDEMENT OF WOUND WITH A FIBRE DREBRIDEMENT PAD
Henriette Hansen, Karina Lai Andersen
flag, Education

EP267  ESTABLISHING A SPECIALIST WOUND CENTRE IN A MAXIMUM CARE FACILITY
Tanja Lamm
Health Economics & Outcome

EP268  REDUCING CAESAREAN SECTION SURGICAL SITE INFECTION WITH NEGATIVE PRESSURE WOUND THERAPY IN HIGH RISK PREGNANCIES
Narmada Katakam, Sangeeta Das
Negative Pressure Wound Therapy
| EP269 | POSSIBLE SOURCES OF ERROR WITH VACUUM THERAPY  
Elisabeth Krippl |
| EP270 | ANALYSIS OF OUTCOMES FOR 164 SURGICALLY TREATED PRESSURE ULCERS: A SINGLE-CENTER EXPERIENCE  
Rytis Rimdeika, Ernest Zacharevskij, Mantas Kievišas, Gytis Baranauskas, Valdonė Kolaitytė |
| EP272 | NEW LYMPHOLOGY CENTRE IN A UNIVERSITY HOSPITAL – AN OPPORTUNITY TO IMPROVE PATIENTS QUALITY OF LIFE  
Lenka Krupová |
| EP273 | CAN A RELATIVE JUDGE A PATIENT’S QUALITY OF LIFE ON THEIR BEHALF?  
Brigitte Kalthoff, Christine Biome |
| EP274 | QUALITY OF LIFE WITH EPIDERMOLYSIS BULLOSA – TRANSLATION AND COGNITIVE PRETESTING OF “QUALITY OF LIFE IN EPIDERMOLYSIS BULLOSA (QOLEB)” QUESTIONNAIRE  
Anita Keller, Hauke Schumann, Steffen Fleischer |
| EP275 | INVESTIGATING PRESSURE-REDUCING DEVICES FOR PROTECTION AGAINST PRESSURE-INDUCED SKIN DAMAGE  
Chloé Yeung, David Holmes, Rachel Crompton, Stuart Morse, Helen Thomason, Christian Stephenson, Brian Derby, Matthew Hardman |
| EP276 | AN EXPLORATION OF THE NATURE OF COMPETENCE IN LEG ULCER MANAGEMENT AND ISSUES IN MEASURING AND SUSTAINING COMPETENCE IN PRACTICE  
Irene Anderson |
| EP277 | ANTIMICROBIAL PEPTIDES IN HUMAN CRYOPRESERVED VIABLE AMNIOTIC MEMBRANE* INHIBIT BACTERIAL GROWTH  
Yi Arnold, Yong Mao, Tyler Hoffman, Anne Lerch, Sandeep Dhall, Joachim Kohn |
| EP278 | COMPARISON OF 24 HOURS FLUID HANDLING CAPACITY AND ABSORPTION UNDER PRESSURE BETWEEN THREE ‘LITE’ WOUND DRESSINGS WITH SILICONE ADHESIVE  
Maibritt Bansholm Andersen |
| EP279 | CHALLENGING LOWER LIMB ULCERATIONS IN PATIENTS WITH IMPAIRED TISSUE PERFUSION: APPLICATION OF A VIABLE INTACT CRYOPRESERVED HUMAN AMNIOTIC MEMBRANE TO ACHIEVE WOUND CLOSURE  
Georgina Michael, Jon Smedley |
| EP280 | APPLICATION OF ATRAUMATIC GIDROGEL DRESSING* ON THE LOCAL TREATMENT OF BURN WOUND  
Borisov Valery, Kaplunova Mariia |
| EP281 | THE DEVELOPMENT OF A SLOUGH BIOFILM MODEL  
John Hunt, Louise Suleman, Steven Percival |
| EP282 | THE ROLE OF PLASTIC SURGERY IN MULTIDISCIPLINARY APPROACH TO COMPLICATED WAR INJURIES THE IMPACT OF THE SYRIAN CIVIL WAR ON THE PLASTIC SURGERY DEPARTMENT OF GALILEE MEDICAL CENTER  
Leonid Kogan, Ido Lavee, Rojer Najjar, Patrick Ben Meir |
| EP283 | REVERSE SURAL ARTERY FLAP IN PEDIATRIC PATIENTS AND WOUNDS PATIENTS WITH COMPLICATED  
Leonid Kogan, Ido Lavee, Rojer Najjar, Patrick Ben Meir |
EP284 UPDATE OF THE PRINCIPLES OF BEST PRACTICE: WOUND INFECTION IN CLINICAL PRACTICE. WHAT HAS CHANGED SINCE 2008? Terry Swanson, Jacqui Fletcher, David Keast

EP285 RESULTS IN THE TREATMENT OF BURN WOUNDS WITH A NEW HYDROCOLLOID DRESSINGS Kaplunova Mariia, Borisov Valery

EP286 A SIMPLIFIED APPROACH IN THE MANAGEMENT OF CHRONIC WOUNDS WITH AN ENZYME-ALGINOGEL Choon Chiat Oh, Severin Laeuchli

EP288 THE HEALING EFFECT OF NON-THERMAL PLASMA IN PRESSURE SORE: A RANDOMIZED CONTROLLED TRIAL Apirag Chuangsuwanich, Thananchai Assadamongkong

EP289 ANALYSIS OF ANTI-BACTERIAL SUSCEPTIBILITY AND NEGATIVE PRESSURE WOUND THERAPY OF PRESSURE ULCER INFECTION Hao Daifeng, Shanyou Li, Fan Zhao, Guang Feng, Tao Li, Wanli Chu

EP291 INTRODUCTION OF AUTOPLASMA USING PNEUMATIC NEEDLE-FREE INJECTOR IN PATIENTS WITH NON-HEALING BURNS WOUND Borisov Valery, Kaplunova Mariia, Pidchenko Nikita

EP292 THE EARLY AND LATE COMPLICATIONS ON SURGICAL SITE AFTER PHLEBECTOMIES Javorka Delic

EP293 A CLINICAL EVALUATION OF TECHNOLOGY LIPIDO-COLLOID, NANO OLIGO-SACCHARIDE FACTOR PROTEASE INHIBITOR DRESSING IN THE MANAGEMENT OF CHRONIC WOUNDS Debbie Simon, Elizabeth Merlin-Manton

EP294 AN EVALUATION OF THE CLINICAL ACCEPTABILITY OF AN ABSORBENT FOAM DRESSING WITH SILICONE ADHESIVE BORDER AND TLC HEALING MATRIX TECHNOLOGY IN A MULTI-SITE STUDY Joanne Guthrie, Ruth Potter

EP295 EVALUATION OF AN ABSORBENT FOAM DRESSING WITH A SILICONE ADHESIVE BORDER AND TLC HEALING MATRIX TECHNOLOGY FOR LOW TO MODERATELY EXUDING WOUNDS Mhairi Eaglesham, Nicky Luke

EP296 COMPARISON OF 24 HOURS FLUID HANDLING AND ABSORPTION UNDER PRESSURE BETWEEN FOUR WOUND DRESSINGS WITH AG AND SILICONE ADHESIVE Maibritt Bansholm Andersen
CASE STUDIES AND PROFESSIONAL COMMUNICATION
(NOT IN ORAL E-POSTER SESSION)

EP297  A MULTIMODAL SURGICAL STRATEGY FOR LIMB SAVING TREATMENT OF DIABETIC FOOT GANGRENE
Dominik Luedi

EP298  TARGETED USE OF PROTEASE MODULATING DRESSINGS IN THE PERISTOMAL PYODERMA GANGRENOsum MANAGEMENT
Mario Antonini, Gaetano Militello

EP299  RARE COMPLICATION OF SILICONE FLUID INJECTION PRESENTING AS HARD TO HEAL WOUND IN LOWER LEG CARED BY DICED ACELLULAR DERMAL MATRIX AND NEGATIVE PRESSURE WOUND THERAPY
Lee Jun Beom, Hwan Jun Choi

EP300  USE OF AUTOLOGOUS SKIN CELL SUSPENSIONS TO HEAL COMPLEX CHRONIC WOUNDS.
Tomás O’Neill, Jonathan Wiper, Ian Smith

EP301  NOVEL INDICATION OF NPWT: VACUUM-ASSISTED WOUND CLOSURE TECHNIQUE AND MESH-MEDIATED FASCIAL TRACTION IN TREATMENT OF OPEN ABDOMEN
Giuseppe Salamone, Mirko Mangiapano, Leo Licari, Giovanni Guercio, Gaspare Gulotta

EP302  USING A SILVER ALGINATE PASTE IN A CASE SERIES OF INFECTED NEUROPATHIC ULCERS
Samantha Haycocks, Paul Chadwick

EP303  USING A NEW SILICONE HEEL DRESSING ON A PAINFUL DIABETIC FOOT ULCER
Paul Chadwick, Samantha Haycock

EP304  POST-SURGICAL WOUND MANAGEMENT OF PATIENTS WITH Pilonidal Cysts by using a Haemoglobin Spray
Peter Engels, Nesat Mustafi

EP307  OUR EXPERIENCE WITH A NEW DRESSING IN THE DESLOUGHING OF A POSTOPERATIVE WOUND IN THE CONTEXT OF MAXILLOFACIAL RECONSTRUCTIVE SURGERY
Alexis Veyssiere

EP308  OUR EXPERIENCE WITH THE TLC-NOSF RANGE OF DRESSINGS IN THE MANAGEMENT OF DIABETIC FOOT ULCERS FOLLOWING PARTIAL AMPUTATION
C. Lauras, Frédéric Charlaté

EP309  EVALUATION OF THE ABSORBENT ROPE DRESSING IN THORACIC SURGERY IN THE HEALING OF AN INFECTED PNEUMONECTOMY CAVITY TREATED BY THORACOSTOMY
Patrick Bagan

EP310  EVALUATION OF TLC-NOSF DRESSINGS IN THE TREATMENT OF POST-TRAUMATIC WOUNDS THAT HAVE BECOME CHRONIC
Valerie Skiba

EP311  IMPROVING OUTCOMES: A HOLISTIC APPROACH TO CHRONIC OEDema MANAGEMENT
Alyson Davies

GENERAL INFORMATION

CONFERENCES VENUE
MESSE BREMEN
Findorffstraße 101
28215 Bremen
Germany
www.messe-bremen.de/eng/

CONTACT
EWMA Secretariat
Nordre Fasanvej 113
DK-2000 Frederiksberg
Denmark
ewma@ewma.org
www.ewma2016.org
Tel.: +45 70200305

DISABLED ACCESS
All areas of the Bremen Exhibition Centre and the Bremen Congress Centre, except Meeting rooms 1-3 and Session room 6, allow disabled access.

CONFERENCE SECRETARIAT
The conference secretariat is located in the Foyer of Hall 5 [exhibition]. Please see signs and overview map on-site for exact location. The conference telephone and e-mail will be answered between 08:00 and 22:00 every day during the conference.
Tel.: +45 7020 0305
E-mail: ewma@ewma.org

CONFERENCE HOURS
Tuesday 10 May
15:00-18:00 Registration open: You can collect your badge and bag in Foyer Hall 4, MESSE BREMEN.

Wednesday 11 May
07:30-18:30 Registration
09:30-10:00 Opening ceremony
10:00-18:15 Plenary & scientific sessions
09:30-17:00 Commercial exhibition

Thursday 12 May
07:00-18:00 Registration
08:00-18:15 Scientific sessions
09:00-18:00 Commercial exhibition
18:00-00:00 Get-Together (free event open to all visitors/exhibitors) in the ÖVB Arena at the Conference Venue MESSE BREMEN

Friday 13 May
07:30-14:00 Registration
08:00-15:15 Scientific sessions
15:15-15:45 Closing ceremony
09:00-16:30 Commercial exhibition
CONFERENCE APP FOR SMART PHONES AND TABLETS
The conference mobile app is an interactive, digital guide designed specifically for the conference. The app is available for download in App Store or through Google Play by searching for “EWMA 2016 BREMEN” or “DEWU 2016”.

TAXIS
Taxis can drive right to the entrance of Hall 4 where the registration is located.
Taxi companies:
Taxi-Roland: Tel.: +49 421 14433
Taxi-Ruf Bremen: Tel.: +49 421 14014
Hansa-Funk-Taxen: Tel.: +49 421 14141

PUBLIC PARKING
The multi-storey car park is open 24 hours and has a parking fee of 1 EUR per hour or 5 EUR per day.

In addition, the large car park Bürgerweide offers plenty of parking space right by the conference entrance. A parking fee of 5 EUR is applicable.

BADGES
All participants and exhibitors should wear the name badge in the conference area at all times. The badge must be visible.

BANKING/ATM
An ATM is located in the MESSE BREMEN, Foyer of Hall 5.

GENERAL CERTIFICATES OF ATTENDANCE
You are able to print your general certificate after 14:00 hours on your last day of attendance.

CLOAKROOM
The cloakroom is located by the registration area, Foyer of Hall 4, and is provided free of charge.

CME (EWMA EUROPEAN CME) – EUROPEAN CONTINUED MEDICAL EDUCATION CREDITS
The conference is accredited by the European Accreditation Council for Continuing Medical Education (EACCME). For further information on the EACCME please see: www.uems.net

EWMA 2016 is designated for a maximum of up to 17 credits. In order to obtain the CME credits please log your attendance each day before 14:00 hours by scanning your badge at the logging stations in the registration area. You are able to print out your certificate after 14:00 hours on your last day of attendance.

CURRENCY

Bremen Town Musicians, © BTZ Bremer Touristik-Zentrale
ENTITLEMENTS
Final programme, conference bag, admission to the full conference programme including all special sessions. Participation in the Get-Together Event on Thursday 12 May is free and open to all visitors/exhibitors.

EMERGENCY & FIRST AID
Paramedics are present throughout the opening hours of any event and can be contacted by phone +49 421 3505 215.

LUNCH AND COFFEE
Lunch and coffee can be purchased in the cafés and restaurants located throughout the venue.

SPEAKER INFORMATION
Please bring your presentation to the Speakers Preparation Room at least 2 hours before your presentation. The Speakers Preparation Room is located in the registration area to the right when entering Foyer of Hall 4. Please see overview map for exact location.

The Speakers Preparation Room opening hours are:
- Tuesday 10 May 15:00-18:00
- Wednesday 11 May 07:30-18:00
- Thursday 12 May 07:00-18:00
- Friday 13 May 07:00-14:00

A technician will assist you in transferring the presentation to a central conference server. When the transfer is complete, the technician performs a quick run of the presentation in order for you to check whether the presentation runs correctly and that all parts of the presentation are copied.

We do not allow the use of personal laptops for presentations. Please bring your presentation on CD, DVD or memory stick. Unless otherwise agreed all presentations will be deleted in order to secure that no copyright issues will arise at the end of the conference.

INTERNET AND WIFI
Free access to the WIFI at Messe Bremen is provided. Wireless network name: ewmadewu Security key: ewmadewu

Upon clicking ok after entering the security key your browser will open automatically. (If not, please open your internet browser manually).

On the opening Website click on “You can get a voucher by SMS”. Please follow the further instructions. In case of any problems, please contact the Exhibitor Service in Foyer of Hall 5. Furthermore an Internet Café is located in Hall 5.
MOBILE PHONES
All mobile phones must be on silent mode during the sessions.

LANGUAGES
The language for the EWMA 2016 conference is English and German.

LOST AND FOUND
Found items should be returned to the cloakroom. If you lose something, please report to this desk for assistance.

NO SMOKING POLICY
Smoking is prohibited in all the exhibition halls and in the Bremen Congress Centre. There are dedicated outdoor smoking areas available.

ELECTRONIC POSTERS (E-POSTERS)
E-posters are on display during all conference days on touch screens situated in the e-poster area in Hall 5. All E-posters are available on all screens. E-posters should be uploaded online before the conference.

E-poster sessions: E-poster sessions are held at the 4 screens placed in the E-poster area in Hall 5. Each E-poster will be displayed for 3 minutes (guided by a chairperson), where you are kindly asked to be present and discuss your poster with other participants. Please check programme book for specific time and place of each E-poster session.
**PRESENTER AWARDS**

**EWMA First time presenter prize:** This award is designed to encourage people who have not previously presented their work at an international conference. To be eligible for this prize you must have submitted your abstract to EWMA and you must be a “novice presenter”. That is, you should not have presented previously at an international conference. The value of the prize is 450 EURO.

**POSTER PRIZES**

The poster awards are designed to reward the considerable work that goes into preparing a poster for presentation at the conference. To be eligible for consideration you must have a paper accepted for poster presentation at the EWMA 2016 conference.

Posters that have been submitted/presented elsewhere are not eligible for a poster prize. A panel of judges will attend the poster sessions, and authors are strongly encouraged to be present at these sessions in order to answer questions concerning their work. The panel will award 3-5 poster prizes. The value of each poster prize is 200 EURO. Your accepted poster will automatically be considered for this award, provided that it has not previously been submitted elsewhere (all categories except Case Studies and Professional Communication).

  - www.chemomedica.at
  - Innovation from tradition - CHEMOMEDICA is always a reliable partner for high-quality pharmaceutical and medical products. We offer an extensive portfolio of complementary wound care products.

- **Chemviron Carbon Cloth Division**
  - Tel.: +44 191 584 6962
  - rbrown@calgoncarbon-eu.com
  - www.zorflex.com
  - Manufacturers of Zorflex VB-K antimicrobial, conductive wound dressings and activated carbon cloth used in medical devices by some of the world’s leading medical companies for wound dressings and ostomy filters.

- **Cica Biomedical Ltd**
  - Tel.: +44 142 379 9090
  - info@cica-biomedical.com
  - www.cica-biomedical.com
  - Cica Biomedical Ltd is an independent UK-based company that provides contract pre-clinical and clinical research services to the wound management / tissue viability sector.
CINOXY GmbH
Tel.: +49 552 784 837 71
plasma@cinogy.de
www.cinogy.de

CINOXY GmbH is the innovation leader in plasma medicine. CINOXY has globally declared its conformity with EU Guideline 93/42/EEC for its PlasmaDerm® product family after passing the necessary conformity assessment procedures.

Coloplast A/S
Tel.: +45 491 111 11
dkmail@coloplast.com
www.coloplast.com

Coloplast want to make life easier for patients with wounds and simplify wound care for people who care for them. Together we achieve fewer days with wounds.

COLUXIA LABORATOIRES
Tel.: +33 438 553 0473
contact@coluxia.com
www.coluxia.com

Gergonne Industrie / Laboratoires Coluxia offer high performance components designed for advanced woundcare applications: high MVTR PU films, skin-friendly adhesives and wound contact layers, as well as a clean room conversion and packaging service.

Consept GmbH & Co.KG
Tel.: +49 763 469 554 25
info@consept.info
www.consept.info

Consept GmbH & Co.KG is a development, sales and marketing company for „Wound- and Infection Care“! Our partner company, Biovision GmbH, is the experienced manufacturer of all our products. Our portfolio includes EPIGARD – EPIVAC - EPITRACC

Contipro Pharma a.s.
Tel.: +420 465 519 530
sales@contipro.com
www.contipro.com

Biotechnology company focused on research and development of wound care products actively supporting healing process.

ConvaTec
Tel.: +44 800 289 738
www.convatec.com

ConvaTec is a leading developer of innovative medical technologies in Wound Therapeutics, Ostomy Care, Continence and Critical Care and Infusion devices that have helped improve the lives of millions worldwide.

Coreleader Biotech Co. Ltd.
Tel.: +886 226 968 880
www.coreleaderbio.com

We are a MFG of advanced bio wound dressings ranging from collagen, chitosan, alginate, silicone and bio-cellulose membrane. We focus on bleeding control as well as the chronic ulcer healing.

Covalon Technologies Ltd.
Tel.: +1 905 568 8400
info@covalon.com
www.covalon.com

Covalon researches, develops and commercializes new healthcare technologies that help save lives around the world. Covalon’s technologies are used to prevent, detect and manage medical conditions in the areas of wound care, tissue repair, infection control, disease management, medical device coatings and biocompatibility.
COVERIS ADVANCED COATINGS
Tel.: +44 197 866 0241
enquiries@coveris.com
www.coverisadvancedcoatings.com
Our inspire® brand of medical components is designed to bring high performance to moist wound dressings, for the professional and consumer market. The range includes polyurethane films, foams, conductive films and pattern adhesive coatings.

Covestro Deutschland AG
Tel.: +49 214 600 920 00
medical@covestro.com
www.covestro.com
Covestro (formerly Bayer MaterialScience), one of the world’s largest polymer companies, focused on the manufacture of high-tech polymer materials, offers raw materials for wound dressings/incision films: high performance films, foams and adhesives.

Crawford Healthcare
Tel.: +44 156 565 4920
info@crawfordpharma.com
www.crawfordhealthcare.com
Crawford Healthcare offer a range of woundcare solutions for skin protection, wound cleansing and debridement, and dressings that manage/absorb exudate and fight wound infection.

curasonix GmbH
Tel.: +49 451 489 080 95
info@curasonix.com
www.curasonix.com
curasonix GmbH is a Germany based company dedicated to enhanced wound care and disinfection through unparalleled ultrasonic technology. We serve patients and healthcare professionals with decades of expertise and excellence in medicine and sciences.

Curea medical GmbH
Tel.: +49 360 719 009 500
info@curea-medical.de
www.curea-medical.de
Curea medical develops and manufactures wound dressings for all types of exudating wounds as well as highly absorbent products for the medical sector.

Damolus GmbH
Tel.: +49 332 847 5780
auftrag@damolus.de
www.damolus.de
Damolus GmbH is a software development company in Teltow. It mainly develops apps for Android-based, mobile devices. For example: Wundoffice - an app for recording and documenting chronic wounds on the go.

DARCO (Europe) GmbH
Tel.: +49 887 922 80
info@dbraco.de
www.dbraco.de
DARCO is dedicated to being the leading provider of post op, trauma and wound care solutions to the global foot and ankle community.

DEBRA International
Tel.: +44 1344 752708
www.debra-international.org
DEBRA International’s vision is to ensure that people living with the painful genetic skin blistering condition EB have access to the best quality support and care, and to drive the development of effective treatments and cures.
DEKOM Engineering GmbH
Tel.: +49 407 344 222 00
info@dekom-medical.de
www.dekom-medical.de
DEKOM – more than 30 years of experience in clinical image and data processing. The company develops IT solutions to fit healthcare professionals' needs and improve their processes. DEKOM has extensive knowledge of DICOM, HL7 and video standards.

Derma Sciences Europe Ltd
Tel.: +44 162 862 5916
orders@dermascienceseurope.co.uk
www.dermasciences.com
Derma Sciences, is an Advanced Woundcare company. Products include Antibacterial MEDIHONEY® Active Leptospermum (Manuka) Honey, XTRASORB®, ALGICELL® Ag, and TCC-EZ®, a highly innovative easy to use, roll-on total contact cast system to treat Diabetic Foot Ulcers and Charcot Foot.

DeRoyal Industries Inc.
Tel.: +1 865 362 6022
info.intl@deroyal.com
www.deroyal.com
DeRoyal’s affordable and advanced products treat all stages of acute, chronic, or burn wounds and are uniquely constructed with the latest technology.

Deutsche Gesellschaft für Phlebologie (DGP)
Phone: +49 228 287 169 59
sekretariat@phlebology.de
www.phlebology.de
The German Society of Phlebology is dedicated to the treatment of venous and arterial disorders and the resulting secondary conditions such as venous leg ulcers as well as to wound management.

Diaspective Vision GmbH
Tel.: +49 382 941 667 60
office@diaspective-vision.com
www.diaspective-vision.com
We develop, produce and distribute an innovative hyperspectral imaging system (VIS-NIR) for non-invasive perfusion monitoring and the objective wound description. The system is compact, flexible, quick, inexpensive and usable in clinical practice.

DIZG German Institute for Cell and Tissue Replacement, a not-for profit Inc.
Tel.: +49 305 770 780 60
dizg@dizg.de
www.dizg.de
DIZG is a non-profit manufacturer of allogenic avital tissue transplants and autologous cell culture transplants. Our allograft and cell cultures help to restore health to patients with serious tissue defects.

DM Systems’ Heelift
Tel.: +1 847 328 9540
info@dmsystems.com
www.heelift.com
Avoid amputation, heal chronic wounds & prevent heel pressure ulcers. See published clinical evidence, request a sample. The Heelift® Suspension Boot.

Don & Low Ltd
Tel.: +44 130 745 2414
will.campbell@donlow.co.uk
www.donlow.co.uk/medical
Don & Low is a UK based manufacturer of high performance nonwovens and laminates. With a broad variety of technologies and raw materials, we offer effective and reliable solutions to the most challenging demands. New for 2016: High stretch nonwovens.

| **Principelle** | Tel.: +316 575 733 77  
info@principelle.com  
www.principelle.com  
In pursuit of excellence in wound and skin care, Principelle is manufacturing technically advanced products. Practical application of inventiveness, creativity, and product support leads to surprisingly beneficial clinical outcomes. We do have a Distributor close to you! |
| **ProVita** | Mühlen-Verlag – ProVita – The interdisciplinary professional healthcare magazine |
| **PulseFlow Technologies** | Tel.: +44 129 667 8596  
info@pulse-flow.net  
www.pulse-flow.net  
We look forward to showing you PulseFlowDF, cutting edge wearable technology combining offloading and intermittent pneumatic compression with state-of-the-art treatment monitoring software, to optimise wound healing in the diabetic foot. |
| **PWG Seminare** | Positioned in Cologne, the PWG Seminare are organising congresses with accompanying trade exhibitions including within the wound care. |
| **Puracyn Plus by Innovacyn** | Tel.: +1 909 822 6000  
PuracynPlusPro@innovacyn.com  
www.puracynpro.com  
The Puracyn® Plus Family of Products is a synergistic wound care management system based on an innovative and powerful science that provides a new strategy for wound care protocols. |
| **Raleigh Coatings** | Tel.: +44 178 585 0357  
sales@raleighcoatings.co.uk  
www.raleighcoatings.co.uk  
Taking your concept or design from lab bench to full production, Raleigh offers acrylic PSA or silicone gel cleanroom coating for the wound care and bio diagnostic market. |
| **REHACARE** | REHACARE is the leading trade fair for the needs of people with disabilities and care requirements, with „theme parks“, industry representatives and non-profit exhibitors. The Forum „Living with Care @Home“ offers seminars about daily care questions. |
| **RJ Laser** | RJ-LASER is based on 34 years of experience in non-invasive medical laser devices (LLLT) for biostimulation / biomodulation, wound management, tissue healing, for points and large surfaces (multi-cluster probes). |
**SPONSORS AND EXHIBITORS**

**ROGG Verbandstoffe GmbH & Co. KG**  
Tel.: +49 813 393 200  
info@rogg-verbandstoffe.de  
www.rogg-verbandstoffe.de

ROGG (www.rogg-webshop.de) is one of the most innovative companies in its field standing for „Health-Care Innovations“, especially in Modern Wound Care, Hygiene and Disinfection. Company services also include a broad range of bandages and dressings.

**ROHO**  
Tel.: +1 618 277 9150  
cc@roho.com  
www.ROHO.com

ROHO is the worldwide leader of seating solutions that prevent & treat pressure ulcers. ROHO’s technology provides skin protection & positioning in a variety of applications: from wheelchair cushions, to therapeutic mattresses, to wheelchair backs & more.

**sanaFactur GmbH**  
info@sanafactur.com  
www.sanafactur.com

sanaFactur is a manufacture of innovations in wound care. At the same time we see a responsibility to provide knowledge and education in order to build the skill set we all need.

**Salvatelli S.r.L.**  
Tel.: +39 733 801 060  
info@molliter.com  
www.molliter.com

Salvatelli S.r.L. is a company that produces orthopaedic shoes (Molliter) and dynamic Walkers for the management of the Diabetic foot ulceration or post-surgery/trauma (Optima).

**Granulox**  
SastoMed GmbH  
Tel.: +49 540 136 519 10  
info@sastomed.de  
www.sastomed.de

Granulox is a worldwide patented medical device to significantly shorten healing time for complex and chronic wounds. The oxygenation of the wound base is increased by facilitated diffusion of Oxygen via natural Hemoglobin.

**Schülke & Mayr GmbH**  
Tel.: +49 405 210 00  
info@schuelke.com  
www.schuelke.com

Schülke & Mayr GmbH is an international leader in the areas of hygiene and prevention of infection. With formulations containing octenidine we offer proven, tolerable and widely effective products for skin, mucous membranes and wounds as well as for the decontamination of multidrug resistant organisms.

**SERAG-WIESSNER GmbH & Co. KG**  
Tel.: +49 928 239 7220

Infusion solution and Liquid an sterile wound care, Surgical sutures, Implants.

**SIGVARIS AG**  
Tel.: +41 712 724 000  
info@sigvaris.ch  
www.sigvaris.ch

The Swiss company SIGVARIS, 100% family-owned since it was founded, is the global market leader in the manufacture of medical compression garments. and celebrated its 150th anniversary in 2014. The company was established in 1864 in Winterthur. For about 100 years, SIGVARIS produced “rubber-elastic textiles”, which it sold both in Switzerland and abroad.
Simex Medizintechnik GmbH
Tel.: +49 742 092 040
info@simexmed.de
www.simexmed.de

SIMEX will be displaying innovative NPWT Systems and dressing kits incl. the patented FloSure™ Ventilation Patch to help prevent stagnation and pooling and to improve exudate removal and optimizing outcomes.

SLK Vertriebsgesellschaft mbH
Tel.: +49 231 925 3600
info@slk-gmbh.de
www.slk-gmbh.de

The SLK Vertriebsgesellschaft mbH develops and distributes anti-decubitus systems, products for intermittent pneumatic compression (IPC) and bariatric care.

Smith & Nephew Advanced Wound Management
Tel.: +44 148 222 5181
www.smith-nephew.com/wound

Improving outcomes for patients
Conserving resources for health care systems. Offering imaginative solutions in advanced wound dressings & NPWT for healthcare professionals.

SOFAR S.p.A.
Tel.: +39 029 093 621
info@sofarfarm.it
www.sofarfarm.it

Sofar is a leading manufacturer of pharmaceuticals and medical devices that are developed with clinicians to improve patients’ quality of life aiming at becoming the preferred partner in some highly specialized therapeutic areas.

Springer Verlag GmbH
leserservice@springer.com
www.springermedizin.de

Provides books, journals and electronic media.

STORZ MEDICAL AG
Tel.: +41 716 774 545
info@storzmedical.com
www.storzmedical.com

Established in 1987, STORZ MEDICAL AG is a Swiss manufacturer of extracorporeal shock wave therapy systems for the treatment of non-healing wounds, diabetic gangrene, ulcera (diabetic), ulcera (non-diabetic) and skin burns.

Stryker Iberia S.L.
Tel.: +34 917 283 500
centralita.madrid@stryker.com
www.stryker.es

Stryker’s Patient Care portfolio focuses on quality and prevention with a proven, performance based approach that impacts both clinical and financial outcomes for healthcare facilities. Stryker has launched over 10 new Patient Care products in the past 3 years, including a new bedframe, support surfaces with pressure ulcer solutions, and patient room furniture.

Synapse Electroceutical Ltd
Tel.: +44 195 956 9433
info@accelheal.com
www.accelheal.com

Accel-Heal from Synapse is a certified and patented electroceutical treatment device designed to improve and accelerate healing rates in patients with complex wounds. With 95% clinical efficacy, it significantly reduces costs for woundcare providers.
Söring GmbH
– Ultrasonic-Assisted Wound Debridement (UAW)
Tel.: +49 410 661 000
info@soering.com
www.soering.com
UAW with SONOCA 185 enables safe and selective wound debridement and biofilm disruption, whereas healthy tissue is protected, making it very beneficial for debridement and cleansing of chronic wounds and also for preparation of skin grafts.

The Lindsay Leg Club Foundation
elie@legclub.org
www.legclub.org
The aims of the Lindsay Leg Club Foundation (CRN 1111259) include both the dissemination of the principles of the socioeconomic Leg Club model and implementation of Leg Clubs.

Thieme & Frohberg GmbH
Tel.: +49 308 390 030
kontakt@frohberg.de
www.frohberg.de
frohberg – Klinik-Wissen-Managen is one of Germany’s leading suppliers of media, consulting and technology services in the healthcare sector.

Thomas Hilfen
– Ultrasonic-Assisted Wound Debridement (UAW)
Tel.: +49 476 188 662
info@thomashilfen.de
www.thomashilfen.de
For more than 4 decades Thomashilfen has been working to make people feel good. In support of all people suffering from disease or disability our goal is your health, well-being and positive development. Our staff of specialists strives to meet a constant demand to excel in the rehabilitation field. They are experts in seating, lying, positioning, but above all - movement and mobility.

Tissue Viability Society
tvs@tvs.org.uk
www.tvs.org.uk
The TVS is probably the world’s oldest society dedicated to all tissue viability issues. Formed in 1981 we are a UK registered charity. The Society attracts members from all health care professions involved with tissue viability.

Trusetal Verbandstoffwerk GmbH
Tel.: +49 520 799 168 80
info@tshs.eu
www.tshs.eu
We offer you innovative products for wound care, ophthalmology, incontinence hygiene but also for diagnostics. From development, through manufacture to sale and distribution— all from a single source and meeting the highest quality standards.

TÜV Rheinland Akademie GmbH
Tel.: +49 800 848 4006
servicecenter@de.tuv.com
www.tuv.com/wundmanager
TÜV Rheinland Akademie counts among the most renowned institutes for vocational training in Germany and provides customized solutions for almost every qualification.

Shanghai UEG Medical Co., Ltd.
Tel.: +86 213 392 7781
zkcheng@ueg.cn
www.uegmedical.com/en
UEG MEDICAL offers a comprehensive range of medical devices including Derm-factor, an inorganic synthetic material for improving wound healing with no toxic and side-effects, especially for chronic ulcerative wounds.
ULURU Inc.
Tel.: +1 214 905 5145
kerschbaumer@uluruinc.com
office@altrazeal.eu
www.altrazeal.eu
ULURU Inc. is a specialty pharmaceutical company focused on the development of a portfolio of wound management and oral care products to provide patients and consumers improved clinical outcomes through controlled delivery utilizing its innovative Nanoflex™ Aggregate technology ALTRAZEAL® and OraDisc™ transmucosal delivery system.

URGO Medical
Tel.: +33 380 545 000
www.urgomedical.com
URGO Medical is specialised in high tech wound care dressings and compression systems to improve treatments for both patients and health care professionals.

Vancive Medical Technologies
Tel.: +32 144 048 11
vancive.medical@averydennison.com
vancive.averydennison.com
From our more than three decades of expertise in adhesive chemistries we developed BeneHold™ Absorbent Wound dressings, including BeneHold™ TASA™ and BeneHold™ Bordered with Odor Control, to manage lightly to moderately exuding wounds.

VATA Inc.
Tel.: +1 503 651 5050
info@vatainc.com
www.vatainc.com
VATA develops, manufactures and distributes the most anatomically realistic simulation aids available for wound and ostomy skills training. The company’s products include Seymour II™, Vinnie Venous Insufficiency Leg™, Wilma Wound Foot™, Stan Stage IV Pressure Ulcer Model™ and Otto Ostomy™.

Vista Medical
Tel.: +31 774 652 676
info@vistamedical.nl
www.vistamedical.nl
t-rv GmbH represents BodiTrak Systems from Canada in Germany and Austria. At EWMA t-rv introduces the new BodiTrak Monitor system. A new tool for continuous monitoring the bed ridden patient and detect risks.

Wacker Chemie AG
Tel.: +49 896 279 0
info@wacker.com
www.wacker.com
WACKER is a globally-active chemical company with some 16,700 employees and annual sales of around 4.83 billion (2014). WACKER has a global network of 25 production sites, 21 technical competence centers and 52 sales offices.

WCS Kenniscentrum Wondzorg
info@wcs.nl
www.wcs.nl
WCS Wound Care Knowledge Centre aims to increase the knowledge of health professionals, in order to improve the quality of wound and skin care. WCS seeks to achieve this objectives through courses, conferences, publications and by encouraging research.

Welcare Industries Spa
Tel.: +39 763 316 353
com@welcaremedical.com
www.welcaremedical.com
Unique wound and skin cleansing/hydrating products proven superior for critical, chronic patients as well as patients undergoing chemo/radiotherapy.
Welland Medical Ltd
Tel.: +44 129 361 5455
info@wellandmedical.com
www.wellandmedical.com
Welland Medical is a British manufacturing company established in 1988 and one of the leading ostomy brands in the UK and worldwide. Welland Medical specialise in the design, development and manufacture of stoma care appliances and accessories.

WINNCARE GROUP
Tel.: +33 607 540 053
vincent.goumy@winncare.fr
www.winncare.fr
Key player on the European medical equipment market, Winncare’s mission is to create the best living conditions for people experiencing a loss of autonomy in their own home or in institutions. Our teams are dedicated to offering them solutions adapted to their needs by providing high quality products and services.

Woundcare-Circle
Tel.: +49 880 792 280
info@woundcare-circle.com
www.woundcare-circle.com
The 3 Woundcare-Circle founders, OPTIMA, Heelift and DARCO are international market leaders providing innovative product solutions. The group permanently supports research & science as well as the advancement of foot disease management.

WOUNDCHEK™ Laboratories
Tel.: +44 175 663 9111
info@woundchek.com
www.woundchek.com
We are focused on the development of novel wound diagnostics products to help improve therapeutic outcomes in wound care. WOUNDCHEK™ Protease Status detects elevated protease activity (EPA). WOUNDCHEK™ Bacterial Status detects bacterial pathogenesis.

Wounds Australia Conference
Tel.: +61 2 6281 6624
woundsaust@conlog.com.au
Wounds Australia Conference
The Inaugural Wounds Australia Conference 2016 is officially underway! AWMA Victoria is thrilled to be hosting the Inaugural Wounds Australian Conference in Melbourne from 9-12th November 2016 at the Melbourne Convention and Exhibition Centre.

Wounds International
Tel.: +44 276 271 510
info@woundsgroup.com
www.woundsinternational.com
Wounds International is the essential online wound management resource for clinicians worldwide offering a range of downloadable and interactive educational opportunities.

Wulff Med Tec GmbH
Tel.: +49 483 699 6410
info@wulff-med.de
www.wulff-klinikmatratzen.de
Manufacturer of mattresses and Positioning articles made of high quality viscoelastic polyurethan-foam. Includes also process optimization and cost reduction of alternating pressure systems.
Wund D.A.CH
Tel.: +43 1602 2548
office@wund-dach.org
www.wund-dach.org
WundD.A.CH is the umbrella association for wound healing associations in the German speaking countries.

Wundzentrum Hamburg e.V.
info@wundzentrum-hamburg.de
www.wundzentrum-hamburg.de
The patient is the center of the networked organization of outpatient, stationary and after inpatient care. The “Wundzentrum Hamburg” eV.is a communication platform for all professionals around the wound as well as for patients and interested persons.

WZ® WundZentren
Tel.: +49 711 577 198 00
info@gvw-gmbh.de
www.wundzentren.de
We currently operate 10 ambulant wound care centres across Germany. At all our sites an interdisciplinary team of a medical specialists and specialised nurses are working according to a standardized treatment process.

XotonicsMED GmbH
Tel.: +49 375 541 351
manja.kollascheck@xotonicsmed.com
www.xotonicsmed.com
Innovative products, research and sustainable solutions. We are specialized in developing innovative products for the healthcare sector in particular optical systems to support wound documentation for quality assurance, diagnostic and medical history taking.

YATHAN Medizinprodukte GmbH
Tel.: +49 302 005 3509
info@yathan.de
www.yathan.de
We are offering pressure relief products made of polymeric gel in a novel mesh structure which additionally contains skin caring oil - effective for protection and care of parchment skin, prevention of decubitus and lining of corsets and orthopedic prostheses.

Zepter Medical GmbH
Tel.: +49 212 645 6460
info@zepter-gesundheit.de
www.zepter-gesundheit.de
Zepter produces and sells premium products in over 60 countries of the world. All products are the result of continuous research and development. They are multi-patented and award-winning high-end products of extraordinary quality and high value for the quality of life.

EXHIBITION HALL 5 - LEVEL 0, GROUND FLOOR
New document by EWMA and Wounds Australia:

Management of patients with venous leg ulcers – Challenges and best practice

Published April 2016

This document provides clinical practice statements addressing key aspects to consider when developing an evidence-based leg ulcer service that enhances the patient journey. The document also identifies barriers and facilitators in the implementation of best practice in the management of a VLU.

The document will be launched in a key session during the EWMA 2016 Conference: Wednesday 11 May 16.45-18.00

New EWMA document:

Negative pressure wound therapy – Overview, challenges and perspectives

Expected publication: June/July 2016

This document provides an overview of the evidence base for the use of negative pressure wound therapy (NPWT) in wound treatment and covers all three types of NPWT: On open wounds, with instillation and over closed incisions. The document also focuses on the organisational and health economical aspects of NPWT.

The document will be presented in a key session during the EWMA 2016 Conference: Friday 13 May 8.00-9.30
Antimicrobial stewardship in wound management:
A BSAC/EWMA Position Paper

Expected publication: Summer 2016

The aim of this position paper is to provide clinicians with an understanding of the importance of Antimicrobial stewardship (AMS) in the management of patients with infected wounds. The paper will also address who should be involved in AMS and how to conduct AMS in wound management.

The paper was initiated and developed in collaboration with the British Society for Antimicrobial Chemotherapy (BSAC). The manuscript is currently in peer review.

The project will be presented in the BSAC/EWMA Symposium at the EWMA 2016 Conference:
Wednesday 11 May 13.45-16.40

Document on the use of oxygen therapies in wound healing

In 2016-2017, EWMA will work on a document aiming to provide practice-oriented guidance on the use of various forms of oxygen therapies for wound treatment. This document will include an overview of treatment options available and an assessment of the best available evidence for use. In addition, the document will detail specific aspects and current discussions connected with the use of oxygen in wound healing.

Expected publication: Spring 2017

The topic and initiative is covered in a key session during the EWMA 2016 Conference:
Friday 13 May 13.45-15.15

For download or more information about the above publications and initiatives, please visit www.ewma.org or contact the EWMA Secretariat: ewma@ewma.org
An Educational Symposium
The Next Generation of Wound Care: Introducing Cryopreserved Placental Membrane

Date: Wednesday 11 May
Time: 12:30 -13:30
Location: Session Room One

Welcome and Introduction
Dr Matthew Young MD FRCP, Consultant Diabetologist, Royal Infirmary of Edinburgh

The Science of Viable Cryopreserved Placental Membrane
Dr Alla Danilkovitch PhD, Chief Scientific Officer, Osiris Therapeutics, Inc.

Evidence Behind the Science
Dr Matthew Young

Clinical Experience
Dr Dan Davis, Doctor of Podiatric Medicine, Family Podiatry Center and St. Vincent's Hospital, Bridgeport, CT, President American Podiatric Medical Association

Q&A Panel Session

Lunch will be provided
