E-POSTERS (NOT IN E-POSTER SESSION)

EP256  PLASMA MEDICINE IN DERMATOLOGY: MOLECULAR MECHANISMS AND CLINICAL OPPORTUNITIES
Stephanie Arndt, Unger Petra, Schewior Ruth, Sigrid Karrer
Acute Wounds

EP257  RESULTS OF A NATIONAL MULTICENTER TRIAL WITH AN ADHESIVE NEUTRAL FOAM DRESSING WITH TLC (TECHNOLOGY LIPIDO-COLLOID) AND A SILICONE BORDER*
Michael Dietlein, Winfried Keuthage, Elisa Becker, Udo Möller
Acute Wounds

EP258  MODERN ANTISEPTIC HYDROGEL IN WOUND INFECTIONOUS COMPLICATIONS TREATMENT IN SURGERY
Anna Afinogenova, Gennady Afinogenov, Svetlana Matelo, Alexander Grosser, Tatiana Kupets, Konstantin Krylov, Dmitry Maday, Georgy Kolchanov
Antimicrobials

EP259  COMPARISON OF THE EFFECTIVE OF APPLICATION NANOCRISTALLINE SILVER DRESSING* AND SILVERSULFADIAZINE CREAM** IN THE TREATMENT BURN WOUNDS
Borisov Valery, Kaplunova Mariia
Burns

EP260  COMPRESSION THERAPY IN FAMILY MEDICINE – CROSS-SECTIONAL STUDY
Tamara Sinčić, Jadranka Kovačević
Devices & Intervention

EP261  INTERMITTENT PNEUMATIC COMPRESSION IN INTRACTABLE CRITICAL ISCHEMIA OF THE LOWER LIMB – A PILOT STUDY
Ingrid Luise Feuerhake, Annette Langager Høgh, Eskild Henneberg
Devices & Intervention

EP262  THE USE OF BIOPLASTIC COLLAGENOUS MATERIAL (BCM)* IN COMPLEX SURGICAL TREATMENT OF THE INFECTED NEURO-ISCHEMIC FORMS (INIF) OF THE DIABETIC FOOT SYNDROME (DFS)
Dmitry Seliverstov
Diabetic Foot

EP263  LOCAL TOLERABILITY, WOUND HEALING PROPERTIES AND ACCEPTABILITY OF TWO WATERPROOF DRESSINGS FOR POST OPERATIVE CARE AFTER MINOR SURGERY
Maike Kuhlmann, Swarna Ekanayake-Bohlig, Katrin Klensang, Sandra Saladin, Walter Wigger-Alberti
Dressings

EP264  CHARACTERIZATION OF NOVEL HUMAN MESENCHYMAL STEM CELL-CONTAINING SKIN SUBSTITUTE* FOR THE TREATMENT OF WOUNDS
Alla Danilkovitch, Dana Yoo, Tim Jansen, Jin-Qiang Kuang, Samson Tom, Dayna Healy, Michelle A. LeRoux
Basic Science

EP265  RESULTS OF A NATIONAL MULTICENTER TRIAL WITH AN ADHESIVE FOAM DRESSING IMPREGNATED WITH A MATRIX-METALLOPROTEINASES-INHIBITOR* AND A SILICONE BORDER IN OUTPATIENTS WITH CHRONIC WOUNDS
Dimitrios Tsantilas, Winfried Keuthage, Elisa Becker, Udo Möller
Dressings

EP266  BENEFITS OF COMMON INSTRUCTIONS IN DEBRIDEMENT OF WOUND WITH A FIBRE DEBRIDEMENT PAD
Henriette Hansen, Karina Lai Andersen
flag, Education

EP267  ESTABLISHING A SPECIALIST WOUND CENTRE IN A MAXIMUM CARE FACILITY
Tanja Lamm
Health Economics & Outcome

EP268  REDUCING CAESAREAN SECTION SURGICAL SITE INFECTION WITH NEGATIVE PRESSURE WOUND THERAPY IN HIGH RISK PREGNANCIES
Narmada Katakam, Sangeeta Das
Negative Pressure Wound Therapy
EP269 POSSIBLE SOURCES OF ERROR WITH VACUUM THERAPY
Elisabeth Krippel
Negative Pressure Wound Therapy

EP270 ANALYSIS OF OUTCOMES FOR 164 SURGICALLY TREATED PRESSURE ULCERS: A SINGLE-CENTER EXPERIENCE
Rytis Rimdeika, Ernest Zacharevskij, Mantas Kievišas, Gytis Baranauskas, Valdonė Kolaitytė
Pressure Ulcer

EP272 NEW LYMPHOLOGY CENTRE IN A UNIVERSITY HOSPITAL – AN OPPORTUNITY TO IMPROVE PATIENTS QUALITY OF LIFE
Lenka Krupová
Quality of Life

EP273 CAN A RELATIVE JUDGE A PATIENT’S QUALITY OF LIFE ON THEIR BEHALF?
Brigitte Kalthoff, Christine Blome
Quality of Life

EP274 QUALITY OF LIFE WITH EPIDERMOLYSIS BULLOSA – TRANSLATION AND COGNITIVE PRETESTING OF “QUALITY OF LIFE IN EPIDERMOLYSIS BULLOSA (QOLEB)” QUESTIONNAIRE
Anita Keller, Hauke Schumann, Steffen Fleischer
Quality of Life

EP275 INVESTIGATING PRESSURE-REDUCING DEVICES FOR PROTECTION AGAINST PRESSURE-INDUCED SKIN DAMAGE
Chloë Yeung, David Holmes, Rachel Crompton, Stuart Morse, Helen Thomason, Christian Stephenson, Brian Derby, Matthew Hardman
Pressure Ulcer

EP276 AN EXPLORATION OF THE NATURE OF COMPETENCE IN LEG ULCER MANAGEMENT AND ISSUES IN MEASURING AND SUSTAINING COMPETENCE IN PRACTICE
Irene Anderson
Education

EP277 ANTIMICROBIAL PEPTIDES IN HUMAN CRYOPRESERVED VIABLE AMNIOTIC MEMBRANE* INHIBIT BACTERIAL GROWTH
Yi Arnold, Yong Mao, Tyler Hoffman, Anne Lerch, Sandeep Dhall, Joachim Kohn
Basic Science

EP278 COMPARISON OF 24 HOURS FLUID HANDLING CAPACITY AND ABSORPTION UNDER PRESSURE BETWEEN THREE ‘LITE’ WOUND DRESSINGS WITH SILICONE ADHESIVE
Maibritt Bansholm Andersen
Dressings

EP279 CHALLENGING LOWER LIMB ULCERATIONS IN PATIENTS WITH IMPAIRED TISSUE PERFUSION: APPLICATION OF A VIABLE INTACT CRYOPRESERVED HUMAN AMNIOTIC MEMBRANE TO ACHIEVE WOUND CLOSURE
Georgina Michael, Jon Smedley
Diabetic Foot

EP280 APPLICATION OF ATRAUMATIC GIDROGEL DRESSING* ON THE LOCAL TREATMENT OF BURN WOUND
Borisov Valery, Kaplunova Mariia
Burns

EP281 THE DEVELOPMENT OF A SLOUGH BIOFILM MODEL
John Hunt, Louise Suleman, Steven Percival
Infection

EP282 THE ROLE OF PLASTIC SURGERY IN MULTIDISCIPLINARY APPROACH TO COMPLICATED WAR INJURIES THE IMPACT OF THE SYRIAN CIVIL WAR ON THE PLASTIC SURGERY DEPARTMENT OF GALILEE MEDICAL CENTER
Leonid Kogan, Ido Lavee, Rojer Najjar, Patrick Ben Meir
Acute Wounds

EP283 REVERSE SURAL ARTERY FLAP IN PEDIATRIC PATIENTS AND WOUNDS PATIENTS WITH COMPLICATED
Leonid Kogan, Ido Lavee, Rojer Najjar, Patrick Ben Meir
Acute Wounds
Terry Swanson, Jacqui Fletcher, David Keast  
Infection

EP285  RESULTS IN THE TREATMENT OF BURN WOUNDS WITH A NEW HYDROCOLLOID DRESSINGS  
Kaplunova Mariia, Borisov Valery  
Burns

EP286  A SIMPLIFIED APPROACH IN THE MANAGEMENT OF CHRONIC WOUNDS WITH AN ENZYME-ALGINOGEL  
Choon Chiat Oh, Severin Laeuchli  
Dressings

EP287  UNIQUE FEATURE OF LIVING AMNIOTIC TISSUE: CELL PROTECTION FROM OXIDANT-INDUCED DAMAGE VIA THE RELEASE OF ANTIOXIDANT MEDIATORS  
Yi Arnold, Amy Johnson, Alexandra Gyurdieva, Alla Danilkovitch  
Basic Science

EP288  THE HEALING EFFECT OF NON-HEAT PLASMA IN PRESSURE SORE: A RANDOMIZED CONTROLLED TRIAL  
Apirag Chuangsawanich, Thananchai Assadamongkong  
Pressure Ulcer

EP289  ANALYSIS OF ANTI-BACTERIAL SUSCEPTIBILITY AND NEGATIVE PRESSURE WOUND THERAPY OF PRESSURE ULCER INFECTION  
Hao Daifeng, Shanyou Li, Fan Zhao, Guang Feng, Tao Li, Wanli Chu  
Pressure Ulcer

EP290  EVALUATION OF A SLOUGH-TRAPPING ABSORBENT DRESSING CONTAINING THE TLC HEALING MATRIX IN THE REMOVAL OF SLOUGH FROM A RANGE OF WOUND TYPES  
Mhairi Eaglesham, Nicky Luke  
Dressings

EP291  INTRODUCTION OF AUTOPLASMA USING PNEUMATIC NEEDLE-FREE INJECTOR IN PATIENTS WITH NON-HEALING BURNS WOUND  
Borisov Valery, Kaplunova Mariia, Pidchenko Nikita  
Burns

EP292  THE EARLY AND LATE COMPLICATIONS ON SURGICAL SITE AFTER PHLEBECTOMIES  
Javorka Delic  
Acute Wounds

EP293  A CLINICAL EVALUATION OF TECHNOLOGY LIPIDO-COLLOID, NANO OLIGO-SACCHARIDE FACTOR PROTEASE INHIBITOR DRESSING IN THE MANAGEMENT OF CHRONIC WOUNDS  
Debbie Simon, Elizabeth Merlin-Manton  
Dressings

EP294  AN EVALUATION OF THE CLINICAL ACCEPTABILITY OF AN ABSORBENT FOAM DRESSING WITH SILICONE ADHESIVE BORDER AND TLC HEALING MATRIX TECHNOLOGY IN A MULTI-SITE STUDY  
Joanne Guthrie, Ruth Potter  
Dressings

EP295  EVALUATION OF AN ABSORBENT FOAM DRESSING WITH A SILICONE ADHESIVE BORDER AND TLC HEALING MATRIX TECHNOLOGY FOR LOW TO MODERATELY EXUDING WOUNDS  
Mhairi Eaglesham, Nicky Luke  
Dressings

EP296  COMPARISON OF 24 HOURS FLUID HANDLING AND ABSORPTION UNDER PRESSURE BETWEEN FOUR WOUND DRESSINGS WITH AG AND SILICONE ADHESIVE  
Maibritt Bansholm Andersen  
Dressings
CASE STUDIES AND PROFESSIONAL COMMUNICATION
(NOT IN ORAL E-POSTER SESSION)

EP297  A MULTIMODAL SURGICAL STRATEGY FOR LIMB SAVING TREATMENT OF DIABETIC FOOT GANGRENE
Dominik Luedi

EP298  TARGETED USE OF PROTEASE MODULATING DRESSINGS IN THE PERISTOMAL PYODERMA GANGRENOSUM MANAGEMENT
Mario Antonini, Gaetano Militello

EP299  RARE COMPLICATION OF SILICONE FLUID INJECTION PRESENTING AS HARD TO HEAL WOUND IN LOWER LEG CARED BY DICED ACELLULAR DERMAL MATRIX AND NEGATIVE PRESSURE WOUND THERAPY
Lee Jun Boem, Hwan Jun Choi

EP300  USE OF AUTOLOGOUS SKIN CELL SUSPENSIONS TO HEAL COMPLEX CHRONIC WOUNDS.
Tomáš O’Neill, Jonathan Wiper, Ian Smith

EP301  NOVEL INDICATION OF NPWT: VACUUM-ASSISTED WOUND CLOSURE TECHNIQUE AND MESH-MEDIATED FASCIAL TRACTION IN TREATMENT OF OPEN ABDOMEN
Giuseppe Salamone, Mirko Mangiapane, Leo Licari, Giovanni Guercio, Gaspare Gulotta

EP302  USING A SILVER ALGINATE PASTE IN A CASE SERIES OF INFECTED NEUROPATHIC ULCERS
Samantha Haycocks, Paul Chadwick

EP303  USING A NEW SILICONE HEEL DRESSING ON A PAINFUL DIABETIC FOOT ULCER
Paul Chadwick, Samantha Haycock

EP304  POST-SURGICAL WOUND MANAGEMENT OF PATIENTS WITH Pilonidal Cysts by Using a Haemoglobin Spray
Peter Engels, Nesat Mustafi

EP307  OUR EXPERIENCE WITH A NEW DRESSING IN THE DESLOUGHING OF A POSTOPERATIVE WOUND IN THE CONTEXT OF MAXILLOFACIAL RECONSTRUCTIVE SURGERY
Alexis Veyssiere

EP308  OUR EXPERIENCE WITH THE TLC-NOSF RANGE OF DRESSINGS IN THE MANAGEMENT OF DIABETIC FOOT ULCERS FOLLOWING PARTIAL AMPUTATION
C. Lauras, Frédéric Charlaté

EP309  EVALUATION OF THE ABSORBENT ROPE DRESSING IN THORACIC SURGERY IN THE HEALING OF AN INFECTED PNEUMONECTOMY CAVITY TREATED BY THORACOSTOMY
Patrick Bagan

EP310  EVALUATION OF TLC-NOSF DRESSINGS IN THE TREATMENT OF POST-TRAUMATIC WOUNDS THAT HAVE BECOME CHRONIC
Valerie Skiba

EP311  IMPROVING OUTCOMES: A HOLISTIC APPROACH TO CHRONIC OEDEMA MANAGEMENT
Alyson Davies
EP312 THE MANAGEMENT AND PSYCHOLOGICAL IMPACT OF A HOT WATER BOTTLE BURN IN A DIABETIC FOOT USING AN HYDRO-DESLOUGHING ABSORBENT DRESSING CONTAINING TLC HEALING MATRIX
Dorothy Mcintock, Nicky Luke

EP313 THE USE OF A HYDRO-DESLOUGHING ABSORBENT DRESSING CONTAINING TLC HEALING MATRIX IN THE MANAGEMENT OF A DIABETIC FOOT WOUND FOLLOWING AMPUTATION
Dorothy Mcintock, C. Frin, Nicky Luke

EP314 MANAGEMENT OF DIABETIC FOOT ULCERS USING A NEXT-GENERATION ANTIMICROBIAL DRESSING: CASE STUDIES
Rachel Torkington-Stokes, Dan Metcalf, Philip Bowler

EP315 MONOFLAMENT FIBREPADS TO DEBRIDE VARIOUS TYPES OF WOUNDS.
Stella Amesz, Louk van Doorn

EP316 FOCUSED LOW-ENERGY EXTRACORPOREAL SHOCK WAVE THERAPY (ESWT) WITH CHRONIC FOOT ULCERS. 7 CASES
Henning Lohse-Busch

EP317 WOUND MANAGEMENT IN ELEPHANTIASIS
Enikő Wenczl, Márta Telkes

EP318 USE OF AUTOLOGOUS NON-CULTURED CELL THERAPY IN TRAUMATIC WOUND MANAGEMENT TO REDUCE HOSPITAL STAY
Robert Manton, Naveen Cavale

EP319 APPLICATION OF NPWT IN THE TREATMENT OF SOFT TISSUE INFECTION AFTER TOTAL KNEE ARTHROPLASTY
Rui Pedro Borlido Escaleira, Alberto Midões

EP320 A CASE REPORT OF INTRICATE ALBEIT SUCCESSFUL MANAGEMENT OF CIVILIAN TELEMEDICINE IN CONFRONTATION AREAS
Aharon Wanszelbaum

EP321 MULTIMODALITY TREATMENT FOR NON HEALING WOUND WITH OSTEOMYELITIS IN SICKLE CELL DISEASE
Jayesh Kakar

EP322 SACRAL ULCER OF STAGE IV COMPLICATED TREATMENT WOUNDBAG NEGATIVE PRESSURE
Emanuele Grasso, Peripaulo De Michele

EP323 TREATMENT OF FOOT INFECTIONS WITH RESISTANT MICROORGANISMS
Jayesh Kakar

EP324 DEMONSTRATION OF EFFECTIVE DESLOUGHING OF A CATEGORY 3 PRESSURE ULCER WITH A HYDRO-DESLOUGHING ABSORBENT DRESSING WITH TLC HEALING MATRIX (TLC)
Elizabeth Merlin-Manton

EP325 THE USE OF A TWO LAYER COMPRESSION BANDAGING IN A PATIENT WITH A CHRONIC VENOUS LEG ULCER
Kay Imbriski

EP326 STEAM BURN ON NOSE BY HEATED, HUMIDIFIED HIGH FLOW NASAL CANNULA (HHHFNC) IN NEONATE.
Lee Jun Beom, Hwanjun Choi
EP327 TREATMENT OF A PRESSURE COOKER BURN WITH CONTACT LAYER WITH TLC AG HEALING MATRIX
C. Frin, Ivonne Marquez

EP328 CLINICAL RESULTS OF WOUND TREATMENT AFTER PERCUTANEOUS TRANSLUMINAL ANGIOPLASTY FOR A FOOT ULCER DUE TO THROMBOANGIITISOBILTERANS
Lee Jun Beom, Hwanjun Choi

EP329 A CASE STUDY USING A SILVER ALGINATE DRESSING TO PROMOTE HEALING IN A NON HEALING FOREFOOT AMPUTATION SITE IN A PATIENT WITH DIABETES.
Lynda Bloomer

EP330 A CONTROLLED CASE SERIES USING A NEUROMUSCULAR ELECTRO-STIMULATION DEVICE IN THE CONTROL OF OEDEMA WITH PATIENTS WITH A LOWER LEG WOUND OVER AN EIGHT WEEK PERIOD
Nicola Ivins, Susan Hagelstein, Nia Jones, Keith Harding

EP331 PLATELET-RICH FIBRIN WITH ANTIMICROBIALS COVERED WITH POLYMERIC MEMBRANE DRESSING: A NEW STEP IN TREATMENT OF COMPLICATED CHRONICAL WOUNDS
Danijela Semenic, Tea Nizič Kos, Irena Jovisic, Janja Nikolic, Dragica Maja Smrke

EP332 KAPOSI’S SYNDROME- A CAUSE OF LYMPHOEDEMA
Javorka Delic, Spasoje Radovanovic

EP334 CLINICAL DECISION MAKING WITH PATIENTS BY OFFERING COMPRESSION CHOICES
Agnes Collarte, Loty Lara, Jeanette Muldoon

EP335 EFFECTIVENESS OF THERAPY WITH NEGATIVE PRESSURE INSTILLATION A STEP WITH ANTISEPTIC IN THE TREATMENT OF PATIENTS WITH CHRONIC WOUND WITH CONTAMINATION MULTIDRUG - MRSA
Sara Sandroni

Sara Sandroni

EP337 MANAGEMENT OF INCONTINENCE-ASSOCIATED DERMATITIS WITH A SILICONE SKIN BARRIER PROTECTANT
Geraldine Southgate, Sarah Bradbury

EP338 THE BENEFIT OF ANTIMICROBIAL POLYMERIC MEMBRANE SILVER DRESSINGS TO STIMULATE WOUND HEALING PROCESS – PRESENTING THE CLINICAL CASE STUDY
Nadja Alikadič, Boštjan Pirš, Tomaž Kastelec, Janez Tomažič, Dragica Maja Smrke

EP339 THE ROLE OF OXYGEN IN HEALING OF CHRONIC WOUNDS
Tanja Planinšek Ručigaj, Ana Slana, Nada Kecelj Leskovec

EP340 ADAPTING CARE TO OVERCOME THE CHALLENGE OF REMOTE GEOGRAPHICAL WORKING
Toni Symon

EP341 AN ANALYSIS OF THE CLINICAL OUTCOMES ACHIEVED WHEN USING HAND ACTIVATED NEGATIVE PRESSURE THERAPY
Julie Trudgian, Elaine Miller

EP342 THE TREATMENT OF NECROTIC LEG ULCER WITH POLYMERIC MEMBRANE SILVER DRESSING - CLINICAL CASE STUDY
Irena Jovisic, Nadja Alikadič, Dragica Maja Smrke

Wednesday 11 May
07:30-18:30 Registration
09:30-10:00 Opening ceremony
10:00-18:15 Plenary & scientific sessions
09:30-17:00 Commercial exhibition

Thursday 12 May
07:00-18:00 Registration
08:00-18:15 Scientific sessions
09:00-18:00 Commercial exhibition
18:00-00:00 Get-Together (free event open to all visitors/exhibitors) in the ÖVB Arena at the Conference Venue MESSE BREMEN

Friday 13 May
07:30-14:00 Registration
08:00-15:15 Scientific sessions
15:15-15:45 Closing ceremony
09:00-16:30 Commercial exhibition
CONference APP for SMART PHONES AND TABLETS
The conference mobile app is an interactive, digital guide designed specifically for the conference. The app is available for download in App Store or through Google Play by searching for “EWMA 2016 BREMEN” or “DEWU 2016”.

TaxIS
Taxis can drive right to the entrance of Hall 4 where the registration is located.
Taxi companies:
- Taxi-Roland: Tel.: +49 421 14433
- Taxi-Ruf Bremen: Tel.: +49 421 14014
- Hansa-Funk-Taxen: Tel.: +49 421 14141

PUBLIC PARKING
The multi-storey car park is open 24 hours and has a parking fee of 1 EUR per hour or 5 EUR per day. In addition, the large car park Bürgerweide offers plenty of parking space right by the conference entrance. A parking fee of 5 EUR is applicable.

BADGES
All participants and exhibitors should wear the name badge in the conference area at all times. The badge must be visible.

BANKING/ATM
An ATM is located in the MESSE BREMEN, Foyer of Hall 5.

GENERAL CERTIFICATES OF ATTENDANCE
You are able to print your general certificate after 14:00 hours on your last day of attendance.

CLOAKROOM
The cloakroom is located by the registration area, Foyer of Hall 4, and is provided free of charge.

CME (EWMA EUROPEAN CME) – EUROPEAN CONTINUED MEDICAL EDUCATION CREDITS
The conference is accredited by the European Accreditation Council for Continuing Medical Education (EACCME). For further information on the EACCME please see: www.uems.net

EWMA 2016 is designated for a maximum of up to 17 credits. In order to obtain the CME credits please log your attendance each day before 14:00 hours by scanning your badge at the logging stations in the registration area. You are able to print out your certificate after 14:00 hours on your last day of attendance.

CURRENCY
EURO
ENTITLEMENTS
Final programme, conference bag, admission to the full conference programme including all special sessions. Participation in the Get-Together Event on Thursday 12 May is free and open to all visitors/exhibitors.

EMERGENCY & FIRST AID
Paramedics are present throughout the opening hours of any event and can be contacted by phone +49 421 3505 215.

LUNCH AND COFFEE
Lunch and coffee can be purchased in the cafés and restaurants located throughout the venue.

SPEAKER INFORMATION
Please bring your presentation to the Speakers Preparation Room at least 2 hours before your presentation. The Speakers Preparation Room is located in the registration area to the right when entering Foyer of Hall 4. Please see overview map for exact location.

The Speakers Preparation Room opening hours are:
- Tuesday 10 May 15:00-18:00
- Wednesday 11 May 07:30-18:00
- Thursday 12 May 07:00-18:00
- Friday 13 May 07:00-14:00

A technician will assist you in transferring the presentation to a central conference server. When the transfer is complete, the technician performs a quick run of the presentation in order for you to check whether the presentation runs correctly and that all parts of the presentation are copied.

We do not allow the use of personal laptops for presentations. Please bring your presentation on CD, DVD or memory stick. Unless otherwise agreed all presentations will be deleted in order to secure that no copyright issues will arise at the end of the conference.

INTERNET AND WIFI
Free access to the WIFI at Messe Bremen is provided.
- Wireless network name: ewmadewu
- Security key: ewmadewu

Upon clicking ok after entering the security key your browser will open automatically. [If not, please open your internet browser manually].

On the opening Website click on “You can get a voucher by SMS”. Please follow the further instructions. In case of any problems, please contact the Exhibitor Service in Foyer of Hall 5. Furthermore an Internet Café is located in Hall 5.
MOBILE PHONES
All mobile phones must be on silent mode during the sessions.

LANGUAGES
The language for the EWMA 2016 conference is English and German.

LOST AND FOUND
Found items should be returned to the cloakroom. If you lose something, please report to this desk for assistance.

NO SMOKING POLICY
Smoking is prohibited in all the exhibition halls and in the Bremen Congress Centre. There are dedicated outdoor smoking areas available.

ELECTRONIC POSTERS (E-POSTERS)
E-posters are on display during all conference days on touch screens situated in the e-poster area in Hall 5. All E-posters are available on all screens. E-posters should be uploaded online before the conference.

E-poster sessions: E-poster sessions are held at the 4 screens placed in the E-poster area in Hall 5. Each E-poster will be displayed for 3 minutes (guided by a chairperson), where you are kindly asked to be present and discuss your poster with other participants. Please check programme book for specific time and place of each E-poster session.
PRESENTER AWARDS

**EWMA First time presenter prize:** This award is designed to encourage people who have not previously presented their work at an international conference. To be eligible for this prize you must have submitted your abstract to EWMA and you must be a “novice presenter”. That is, you should not have presented previously at an international conference. The value of the prize is 450 EURO.

POSTER PRIZES

**The poster awards** are designed to reward the considerable work that goes into preparing a poster for presentation at the conference. To be eligible for consideration you must have a paper accepted for poster presentation at the EWMA 2016 conference.

Posters that have been submitted/presented elsewhere are not eligible for a poster prize. A panel of judges will attend the poster sessions, and authors are strongly encouraged to be present at these sessions in order to answer questions concerning their work. The panel will award 3-5 poster prizes. The value of each poster prize is 200 EURO. Your accepted poster will automatically be considered for this award, provided that it has not previously been submitted elsewhere (all categories except Case Studies and Professional Communication).
SOCIAL EVENTS

GET-TOGETHER EVENING!

Date: Thursday 12 May 2016
Time: When the programme ends (17:45 for the ICW programme and 18:15 for the EMWA programme). The event is expected to end around midnight.
Place: at the conference venue MESSE BREMEN, in the ÖVB-Arena, next to the CCB Conference Center Bremen.

Use the opportunity to network with fellow delegates.

Free rustic-style standing snacks/food and drinks (and cash bar after that) with live music and the possibility to dance later on.

Participation is free and the event open to all visitors/exhibitors. No registration needed to attend – just show up.

WEDNESDAY 11 MAY

12:30-13:30
Session Room 1

**Osiris**
Next Generation Wound Care: Introducing Viable Cryopreserved Placental Membrane
Chair: Joanne McCardle

Speakers:
Dan Davis
Joanne McCardle
Alla Danilkovitch
Jon Hopper

12:30-13:30
Session Room 2

**BSN Medical**
A Panel Discussion: Best practice – going forward with the management of CVD
Chair: Matthias Augustin

An Holistic Approach – What should optimum therapy for CVD look like
*Matthias Augustin*

Compliant use of compression therapy for CVD management
*Karl-Christian Münter*

Challenges for wound care and exudate management under compression
*Sharon Bateman*

12:30-13:30
Session Room Kaisen

**MiMedx**
The Dynamic Impact of PURION® Processed dHACM - Defining the New Standard for Bioactive Healing
Chair: Severin Läuchli

Scientific & published clinical data overview of PURION® processed dehydrated human amnion/chorion membrane (dHACM) allografts
*Charles Zelen*

Application techniques and therapeutic approaches used with dHACM grafts for the treatment of complex wounds
*Thomas Davenport*

Clinical case examples of dHACM used in Switzerland
*Severin Läuchli*
13:45-14:45
Session Room
Franzius

B Braun, Coloplast, Smith & Nephew, Urgo
What evidence do we need in practical wound care?
- Best Practice SILVER
Chair: Horst Braunwarth

Controversy surrounding silver - evidence and wound care practice
Joachim Dissemond

Recommendations on practical use of silver
Karl-Christian Münter

15:30-16:30
Session Room 1

ConvaTec
Biofilms: Bench to Bedside
Addressing the clinical challenge with a revolutionary anti-biofilm dressing
Chair: Phil Bowler

‘Fishing’ in Biofilms: insights into biofilm associated infection
Annette Moter

Development of a revolutionary anti-biofilm dressing
Phil Bowler

Clinical results using AQUACEL® Ag+ dressings in practice
Gerhard Kammerlander

Q and A Panel Session

15:30-16:30
Session Room 2

Lohmann & Rauscher
Modern Wound Management: What are our challenges?
What are our solutions? - From biofilm to debridement right up to heavily exuding wounds
Chair: Werner Sellmer

Does biofilm present a challenge for the local treatment of wounds?
Werner Sellmer

Implementation of modern wound management in day-to-day clinical practice
Karsten Glockemann

Nursing – An essential partner in wound management
Björn Jäger
15:30-16:30
Session Room 3
Möllycke Health Care
Price or outcome: How should we be measured?
Chair: Keith Harding
The principle of cost burden
Ceri J Phillips
The business case for better care: Securing resources for prevention vs treatment
Nick Santamaria
Highlighting the impact on patient outcomes
Edna Frenthoff

15:30-16:30
Session Room Focke-Wulff
Smith & Nephew
Why some wounds do not heal: key therapy and interactive cases
Speakers:
Alfred Tylla
Thorsten Prennig

15:30-16:30
Session Room Lloyd
Fidia
The regenerative approach as new option in Wound Care
Chair: A. Kurau
Hyaluronic Acid – It’s role in wound healing and the importance of molecular weight
C. Soranzo
HYALO4 Project – A new option in wound treatment
A. Kurau
HYALO4 Range – Application and results in a German experience
H. Lentfellner
HY TISSUE MICROGRAFT - An innovative biological concept for hard to heal wounds
M. Riccio

15:30-16:30
Session Room Danzig
OxyCare
Topical oxygen therapy and other physical innovations in wound care
Chair: Thomas Wild
O2-TopiCare Wound System - information and success stories
Margarete Ozimek, Peter Peschel
The role of machine-based intermittent compression therapy – How is it different from conventional compression therapy?
Thomas Wild

**DEKOM Engineering GmbH**
Tel.: +49 407 344 222 00
info@dekom-medical.de
www.dekom-medical.de

DEKOM – more than 30 years of experience in clinical image and data processing. The company develops IT solutions to fit healthcare professionals’ needs and improve their processes. 
DEKOM has extensive knowledge of DICOM, HL7 and video standards.

**Derma Sciences Europe Ltd**
Tel.: +44 162 862 5916
orders@dermascienceseurope.co.uk
www.dermasciences.com

Derma Sciences is an Advanced Woundcare company. Products include Antibacterial MEDIHONEY® Active Leptospermum (Manuka) Honey, XTRASORB®, ALGICELL® Ag, and TCC-EZ®, a highly innovative easy-to-use, roll-on total contact cast system to treat Diabetic Foot Ulcers and Charcot Foot.

**DeRoyal Industries Inc.**
Tel.: +1 865 362 6022
info.intl@deroyal.com
www.deroyal.com

DeRoyal’s affordable and advanced products treat all stages of acute, chronic, or burn wounds and are uniquely constructed with the latest technology.

**Deutsche Gesellschaft für Phlebologie (DGP)**
Phone: +49 228 287 169 59
sekretariat@phlebology.de
www.phlebology.de

The German Society of Phlebology is dedicated to the treatment of venous and arterial disorders and the resulting secondary conditions such as venous leg ulcers as well as to wound management.

**Diaspective Vision GmbH**
Tel.: +49 382 941 667 60
office@diaspective-vision.com
www.diaspective-vision.com

We develop, produce and distribute an innovative hyperspectral imaging system (VIS-NIR) for non-invasive perfusion monitoring and the objective wound description. The system is compact, flexible, quick, inexpensive and usable in clinical practice.

**DIZG German Institute for Cell and Tissue Replacement, a not-for profit Inc.**
Tel.: +49 305 770 780 60
dizg@dizg.de
www.dizg.de

DIZG is a non-profit manufacturer of allogenic avital tissue transplants and autologous cell culture transplants. Our allograft and cell cultures help to restore health to patients with serious tissue defects.

**DM Systems’ Heelift**
Tel.: +1 847 328 9540
info@dmsystems.com
www.heelift.com

Avoid amputation, heal chronic wounds & prevent heel pressure ulcers. See published clinical evidence, request a sample. The Heelift® Suspension Boot.

**Don & Low Ltd**
Tel.: +44 130 745 2414
will.campbell@donlow.co.uk
www.donlow.co.uk/medical

Don & Low is a UK based manufacturer of high performance nonwovens and laminates. With a broad variety of technologies and raw materials, we offer effective and reliable solutions to the most challenging demands. New for 2016: High stretch nonwovens.
DTF MEDICAL designs, manufactures and distributes medical devices particularly in management of wound care with alternating mattresses and innovative electrical stimulation dressings. It operates in France and in Germany and worldwide (distributors).

Eakin GmbH sells high quality products for Wound, Fistula and Ostomy Care. The proven and unique Eakin Cohesive® formula for skin protection provides very good skin-friendliness, excellent absorbency, and reliable adhesion.

EHOB® is a leading company in pressure ulcer management and continues to be an innovator of affordable products effective in the prevention and treatment of pressure ulcers which have been used effectively for pressure ulcer prevention and healing therapy for more than twenty-five years.

Eidos Life Sciences is proud to introduce Celero Wound Healing Accellerator for the following applications: Surgical incisions, burns, and diabetic ulcers. Celero Wound Healing Accellerator reduces pain, alkaliizes wound beds, soothes inflamed areas, oxygenates cells, and accelerates growth of skin cells.

The Extracorporeal shockwave therapy (ESWT) for wound management is a non-invasive procedure to stimulate wound healing. The focused shockwaves used in ESWT reach their highest point of pressure precisely in the target tissue.

The research-based, international pharmaceutical company Engelhard Arzneimittel is one of the leading manufacturers in the OTC sector. The company’s core competencies include medicines for respiratory tract diseases and skin conditions.

The European Tissue Repair Society, a not-for-profit organisation founded in 1988, aims to promote knowledge and interchange between scientists, healthcare professionals, industry and other individuals that have an interest in tissue repair of all organs.
The European Council of Enterostomal Therapy (ECET)
Tel.: +45 702 003 05
president@ecet-stomacare.eu
www.ecet-stomacare.eu

The European Council of Enterostomal Therapy is a professional nursing society, which supports its members by promoting educational, clinical and research opportunities to advance the practice and guide the delivery of expert health care with ostomies, incontinence and wounds.

EURORESEARCH srl
Tel.: +39 028 055 660
info@euroresearch.it
www.euroresearch.biz

Euroresearch, established in 1983, operates in different areas of pharmaceutical field, with particular attention to R&D and marketing, licensing and trading of human and veterinary drugs, as well as own-branded collagen based medical devices and pharmaceutical products.

The European Pressure Ulcer Advisory Panel (EPUAP)
Tel.: +420 251 019 379
office@epuap.org
www.epuap.org

The European Pressure Ulcer Advisory Panel works to provide the relief of those suffering from or at risk of pressure ulcers through research, education and influencing pressure ulcer policy in Europe.

Ferris Mfg. Corp. (PolyMem)
Tel.: +1 817 900 1301
info@polymem.com
www.polymem.eu

PolyMem is a unique and patented multifunctional polymeric membrane dressing (not a foam dressing). PolyMem = More Healing & Less Pain

Fidia farmaceutici S.p.A.
Tel.: +39 498 232 111
amagostini@fidiapharma.it
www.fidiapharma.com

Fully integrated Italian healthcare company, with R&D, manufacturing, marketing and sales capabilities, Fidia is world-leading manufacturer of hyaluronic acid, using proprietary, validated processes, for use in Wound Care, Mucosal Health and Aesthetics among others. Operations are FDA-inspected and approved.

FLEN PHARMA SA

UAW with SONOCA 185 enables safe and selective wound debridement and biofilm disruption, whereas healthy tissue is protected, making it very beneficial for debridement and cleansing of chronic wounds and also for preparation of skin grafts.

The Lindsay Leg Club Foundation
ellie@legclub.org
www.legclub.org
The aims of the Lindsay Leg Club Foundation (CRN 1111259) include both the dissemination of the principles of the socioeconomic Leg Club model and implementation of Leg Clubs.

Thieme & Frohberg GmbH
Tel.: +49 308 390 030
kontakt@frohberg.de
www.frohberg.de
frohberg – Klinik-Wissen-Managen is one of Germany’s leading suppliers of media, consulting and technology services in the healthcare sector.

Thomas Hilfen
– Ultrasonic-Assisted Wound Debridement (UAW)
Tel.: +49 476 188 662
info@thomashilfen.de
www.thomashilfen.de
For more than 4 decades Thomashilfen has been working to make people feel good. In support of all people suffering from disease or disability our goal is your health, well-being and positive development. Our staff of specialists strives to meet a constant demand to excel in the rehabilitation field. They are experts in seating, lying, positioning, but above all - movement and mobility.

Tissue Viability Society
tvs@tvs.org.uk
www.tvs.org.uk
The TVS is probably the world’s oldest society dedicated to all tissue viability issues. Formed in 1981 we are a UK registered charity. The Society attracts members from all health care professions involved with tissue viability.

Trusetal Verbandstoffwerk GmbH
Tel.: +49 520 799 168 80
info@tshs.eu
www.tshs.eu
We offer you innovative products for wound care, ophthalmology, incontinence hygiene but also for diagnostics. From development, through manufacture to sale and distribution– all from a single source and meeting the highest quality standards.

TÜV Rheinland Akademie GmbH
Tel.: +49 800 848 4006
servicecenter@de.tuv.com
www.tuv.com/wundmanager
TÜV Rheinland Akademie counts among the most renowned institutes for vocational training in Germany and provides customized solutions for almost every qualification.

Shanghai UEG Medical Co., Ltd.
Tel.: +86 213 392 7781
zkcheng@ueg.cn
www.uegmedical.com/en
UEG MEDICAL offers a comprehensive range of medical devices including Derm-factor, an inorganic synthetic material for improving wound healing with no toxic and side-effects, especially for chronic ulcerative wounds.
ULURU Inc.
Tel.: +1 214 905 5145
kerschbaumer@uluruintc.com
office@altrazeal.eu
www.altrazeal.eu
ULURU Inc. is a specialty pharmaceutical company focused on the development of a portfolio of wound management and oral care products to provide patients and consumers improved clinical outcomes through controlled delivery utilizing its innovative Nanoflex™ Aggregate technology ALTRAZEAL® and OraDisc™ transmucosal delivery system.

URGO Medical
Tel.: +33 380 545 000
www.urgomedical.com
URGO Medical is specialised in high tech wound care dressings and compression systems to improve treatments for both patients and health care professionals.

Vancive Medical Technologies
Tel.: +32 144 048 11
vancive.medical@averydennison.com
vancive.averydennison.com
From our more than three decades of expertise in adhesive chemistries we developed BeneHold™ Absorbent Wound dressings, including BeneHold™ TASA™ and BeneHold™ Bordered with Odor Control, to manage lightly to moderately exuding wounds.

VATA Inc.
Tel.: +1 503 651 5050
info@vatainc.com
www.vatainc.com
VATA develops, manufactures and distributes the most anatomically realistic simulation aids available for wound and ostomy skills training. The company’s products include Seymour II™, Vinnie Venous Insufficiency Leg™, Wilma Wound Foot™, Stan Stage IV Pressure Ulcer Model™ and Otto Ostomy™.

Vista Medical
Tel.: +31 774 652 676
info@vistamedical.nl
www.vistamedical.nl
t-rv GmbH represents BodiTrak Systems from Canada in Germany and Austria. At EWMA t-rv introduces the new BodiTrak Monitor system. A new tool for continuous monitoring the bed ridden patient and detect risks.

Wacker Chemie AG
Tel.: +49 896 279 0
info@wacker.com
www.wacker.com
WACKER is a globally-active chemical company with some 16,700 employees and annual sales of around €4.83 billion (2014). WACKER has a global network of 25 production sites, 21 technical competence centers and 52 sales offices.

WCS Kenniscentrum Wondzorg
info@wcs.nl
www.wcs.nl
WCS Wound Care Knowledge Centre aims to increase the knowledge of health professionals, in order to improve the quality of wound and skin care. WCS seeks to achieve this objectives through courses, conferences, publica- tions and by encouraging research.

Welcare Industries Spa
Tel.: +39 763 316 353
com@welcaremedical.com
www.welcaremedical.com
Unique wound and skin cleansing/hydrating products proven superior for critical, chronic patients as well as patients undergoing chemo/radiotherapy.
Wellland Medical Ltd
Tel.: +44 129 361 5455
info@wellandmedical.com
www.wellandmedical.com
Wellland Medical is a British manufacturing company established in 1988 and one of the leading ostomy brands in the UK and worldwide. Wellland Medical specialise in the design, development and manufacture of stoma care appliances and accessories.

WINNCARE GROUP
Tel.: +33 607 540 053
vincent.goumy@winncare.fr
www.winncare.fr
Key player on the European medical equipment market, Winncare’s mission is to create the best living conditions for people experiencing a loss of autonomy in their own home or in institutions. Our teams are dedicated to offering them solutions adapted to their needs by providing high quality products and services.

Woundcare-Circle
Tel.: +49 880 792 280
info@woundcare-circle.com
www.woundcare-circle.com
The 3 Woundcare-Circle founders, OPTIMA, Heelift and DARCO are international market leaders providing innovative product solutions. The group permanently supports research & science as well as the advancement of foot disease management.

WOUNDCHEK™ Laboratories
Tel.: +44 175 663 9111
info@woundchek.com
www.woundchek.com
We are focused on the development of novel wound diagnostics products to help improve therapeutic outcomes in wound care. WOUNDCHEK™ Protease Status detects elevated protease activity (EPA). WOUNDCHEK™ Bacterial Status detects bacterial pathogenesis.

Wounds Australia Conference
Tel.: +61 2 6281 6624
woundsaust@conlog.com.au
Wounds Australia Conference
The Inaugural Wounds Australia Conference 2016 is officially underway! AWMA Victoria is thrilled to be hosting the Inaugural Wounds Australian Conference in Melbourne from 9-12th November 2016 at the Melbourne Convention and Exhibition Centre.

Wounds International
Tel.: +44 276 271 510
info@woundsgroup.com
www.woundsinternational.com
Wounds International is the essential online wound management resource for clinicians worldwide offering a range of downloadable and interactive educational opportunities.

Wulff Med Tec GmbH
Tel.: +49 483 699 6410
info@wulff-med.de
www.wulff-klinikmatratzen.de
Manufacturer of mattresses and Positioning articles made of high quality viscoelastic polyurethan-foam. Includes also process optimization and cost reduction of alternating pressure systems.
Wund D.A.CH
Tel.: +43 1602 2548
office@wund-dach.org
www.wund-dach.org

WundD.A.CH is the umbrella association for wound healing associations in the German speaking countries.

Wundzentrum Hamburg e.V.
info@wundzentrum-hamburg.de
www.wundzentrum-hamburg.de

The patient is the center of the networked organization of outpatient, stationary and after inpatient care. The “Wundzentrum Hamburg” eV.is a communication platform for all professionals around the wound as well as for patients and interested persons.

WZ® WundZentren
Tel.: +49 711 577 198 00
info@gvw-gmbh.de
www.wundzentren.de

We currently operate 10 ambulant wound care centres across Germany. At all our sites an interdisciplinary team of a medical specialists and specialised nurses are working according to a standardized treatment process.

XotonicSMED GmbH
Tel.: +49 375 541 351
manja.kollascheck@xotonicsmed.com
www.xotonicsmed.com

Innovative products, research and sustainable solutions. We are specialized in developing innovative products for the healthcare sector in particular optical systems to support wound documentation for quality assurance, diagnostic and medical history taking.

YATHAN Medizinprodukte GmbH
Tel.: +49 302 005 3509
info@yathan.de
www.yathan.de

We are offering pressure relief products made of polymeric gel in a novel mesh structure which additionally contains skin caring oil - effective for protection and care of parchment skin, prevention of decubitus and lining of corsets and orthopedic prostheses.

Zepter Medical GmbH
Tel.: +49 212 645 6460
info@zepter-gesundheit.de
www.zepetar-gesundheit.de

Zepter produces and sells premium products in over 60 countries of the world. All products are the result of continuous research and development. They are multi-patented and award-winning high-end products of extraordinary quality and high value for the quality of life.

EWMA PUBLICATIONS

New publications in 2016

New document by EWMA and Wounds Australia:

Management of patients with venous leg ulcers – Challenges and best practice

Published April 2016

This document provides clinical practice statements addressing key aspects to consider when developing an evidence-based leg ulcer service that enhances the patient journey. The document also identifies barriers and facilitators in the implementation of best practice in the management of a VLU.

The document will be launched in a key session during the EWMA 2016 Conference: Wednesday 11 May 16.45-18.00

New EWMA document:

Negative pressure wound therapy – Overview, challenges and perspectives

Expected publication: June/July 2016

This document provides an overview of the evidence base for the use of negative pressure wound therapy (NPWT) in wound treatment and covers all three types of NPWT: On open wounds, with instillation and over closed incisions. The document also focuses on the organisational and health economical aspects of NPWT.

The document will be presented in a key session during the EWMA 2016 Conference: Friday 13 May 8.00-9.30
Antimicrobial stewardship in wound management:

A BSAC/EWMA Position Paper

Expected publication: Summer 2016

The aim of this position paper is to provide clinicians with an understanding of the importance of Antimicrobial stewardship (AMS) in the management of patients with infected wounds. The paper will also address who should be involved in AMS and how to conduct AMS in wound management.

The paper was initiated and developed in collaboration with the British Society for Antimicrobial Chemotherapy (BSAC). The manuscript is currently in peer review.

The project will be presented in the BSAC/EWMA Symposium at the EWMA 2016 Conference:
Wednesday 11 May 13.45-16.40

Document on the use of oxygen therapies in wound healing

In 2016-2017, EWMA will work on a document aiming to provide practice-oriented guidance on the use of various forms of oxygen therapies for wound treatment. This document will include an overview of treatment options available and an assessment of the best available evidence for use. In addition, the document will detail specific aspects and current discussions connected with the use of oxygen in wound healing.

Expected publication: Spring 2017

The topic and initiative is covered in a key session during the EWMA 2016 Conference:
Friday 13 May 13.45-15.15

For download or more information about the above publications and initiatives, please visit www.ewma.org or contact the EWMA Secretariat: ewma@ewma.org
An Educational Symposium
The Next Generation of Wound Care: Introducing Cryopreserved Placental Membrane

Date: Wednesday 11 May
Time: 12:30 -13:30
Location: Session Room One

Welcome and Introduction
Dr Matthew Young MD FRCP, Consultant Diabetologist, Royal Infirmary of Edinburgh

The Science of Viable Cryopreserved Placental Membrane
Dr Alla Danilkovitch PhD, Chief Scientific Officer, Osiris Therapeutics, Inc.

Evidence Behind the Science
Dr Matthew Young

Clinical Experience
Dr Dan Davis, Doctor of Podiatric Medicine, Family Podiatry Center and St. Vincent’s Hospital, Bridgeport, CT, President American Podiatric Medical Association

Q&A Panel Session

Lunch will be provided
